Hi Greg:

I was the law student who prepared the research and wrote the A/B on U.S. v. Tomlinson 03-50558/ CR 00-1007. (You referred to this case on your seminar)

I have a problem which I seek your assistance.

As you are aware the 9th reversed, partly on Blakely/Ameline. (We argued on appeal that albeit def's stipulated via their P/A to a min/max amount of loss, because def's prior counsel was IAC during the plea process, (att wrote a letter to def's stating the total amount of loss could be mitigated at the sent. hrng, thus the amount of loss set forth on P/A was irrelevant) we requested the D/C to conduct an E/H on the amount of loss. The D/C declined, relying on amount set forth on P/A.

Here lies my problem.

After Judge Matz denied def's motion for bail pending appeal and after the 9th also denied, no one received notification of the denial, thus, for the past seven months during the pendency of the appeal def's did not surrender to the BOP.

Now, after the 9th vacated def's sentences, the gov has filed an OSC asking the court to revoke def's bonds for failure to surrender. The gov cited no controlling authority to support its position and I spent the day at the law lib trying to find a case which would address this issue. None was found. Do you have any suggestions other than asking the court to exercise common sense - i.e, case vacated, def's failure to surrender was not a volitional act, def' remain eligible for bond pursuant to statute, i.e., pending sentencing.

Thanks,  
Joe G

I think you have a great organization, especially for a CJA like me.  
But you continue to send me e-mails calling for the payment of dues by  
December, 2004. I paid my dues for six months on 11/08/04 with my visa.  
Please correct your records, so I am not cut off line.

giving free time due to Blakely. Do I get any credit for that time?

I just logged on to the web-site and got a message that my membership expires in 6 days. I checked and, sure enough, I just paid an american express bill for December that included the \$65 dues. Can you please check on my member status.

Thank you in advance,

Trent Gaither

I am very disappointed with my membership so far. I joined to gain

access to the two Booker discussions and I have not been able to access either one. I click to get into the conference center, but it does not come up. It keeps saying "was not able." Is there a way I can get the transcripts from these sessions?

I am trying to attend an on-line semiar on Booker, but no data has been transmitted for a half hour. There has been no place to click on for a certificate of attendance. I wanted to get the circuit rulings on point. Is there a transmission error & if so will this be broadcast again? I joined yesterday to attend this seminar & have not attended one before so I'm not sure what is supposed to happen although what is happening is not what was in your info re: how on-line seminar would work.
